

Your Support

ARCS Scholar Alum **Dr. Wade Marcum**
OSU, Nuclear Engineering

How You Can Support Science

In order to better support the next generation of Oregon researchers and to help build a pipeline of intellectual capital for our state, we need your help. A gift to ARCS Oregon is a transformational way to advance our scientific future, and there are many ways to support these remarkable students.

- **ARCS Foundation Oregon Chapter Scholar Award Fund**
Your gift of any amount goes toward the ARCS mission. Each year the Oregon Chapter's collective funding supports a number of Oregon Chapter Awards of \$18,000 each.
- **ARCS Foundation Oregon Named Scholar Award - \$18,000**
A Donor-Named Scholar Award provides opportunity for engaging with and supporting an individual scholar and his/her research for three years. Two or three donors may jointly fund a Scholar Award.
- **ARCS Foundation Oregon Chapter Endowment - \$100,000**
Funds one Named Endowment in perpetuity. Matching opportunities may be available through ARCS Foundation Oregon Chapter and the generosity of OHSU, OSU, and UO.
- **Planned Giving**
Consider the opportunity to leave a legacy with ARCS Foundation Oregon.
- **Underwrite the Oregon Chapter Annual Scholar Awards Luncheon**
Corporations and individual donors can underwrite the Annual Scholar Awards Luncheon.
- **Make a corporate contribution or create a business matching program.**
- **Join ARCS Foundation Oregon as a member.**

100% of all contributions goes directly to scholars—nothing goes to overhead.
